Player Resources

Phoenixborn Pre-Con Reference Cards

These are miniature versions of the standard Phoenixborn pre-con deck lists found on Ashes.live, sized to fit a standard playing card.

To use: print each sheet on standard 8.5"x11" paper and cut out around the thick black line to fit to a card.

I use these by attaching to a Gamegenics divider to organize my collection by pre-con within a Gamegenic Dungeon. Optionally, you can print and cut the smaller "Divider tops" to attach to the tabs for quick reference. These are handy when deckbuilding to know where to look for cards in specific magic types (or to make sure you are putting a card back into the right deck!) without needing an online reference.

Enjoy! ~Del
