Where To Play

Ashteki

https://ashteki.com/

The primary platform for online play. The majority of games and tournaments run by Ashes Discord members are played here.

Felt Table

https://felttable.com/ashes

Felt Table is a fan created website to play card games against AI opponents. Think of it as playing virtually over Skype or webcam except instead of another player, you will be playing against a computer in your web browser.

The Master Set and some expansions are supported, but not all. This site is intended for people looking to learn the mechanics of the game.
