Tristan Darkwater

"I met Tristan Darkwater once when he visited Sunhold. The lad was bright and friendly but only spoke when etiquette required, and never more than was needed. I am certain he felt great unease socializing among his own kind."

- Darius, Terminal Amurai[1]

Tristan Darkwater
Art from The Ocean's Guard

Guarding Erris Isle, Tristan communes with the life of every being in the ocean. He is a new Phoenixborn, introduced for Ashes Reborn in The Ocean's Guard. He has returned for The End of Argaia.

History

A solitary Phoenixborn, less is known about him than many others. There are hints that he might not be human.

Conjurations

Tristan has created a large number of conjurations, all a part of sea life. The small Prism Tetras can combine into a larger Radiant Leviathan, and disassemble back. He has also made Tidal Crabs, and Seafoam Snappers.

For the fight against the Phoenix-shaped Chimera, he has added the Ocean's Eyes to his conjurations.

Card appearances

- Summon Radiant Leviathan
- Tidal Shift

- Stand Still
- Rising Tides
- Smoldering Rage (The End of Argaia Ruin aspect)
