Victoria Glassfire

The chaotic Queen of Mean, Victoria

Victoria Glassfire
Art from Duchess of Deception

Alternate art full bleed

dwells in Smogborogh. She first appeared in The Duchess of Deception, but has traveled to fight The Spawn of Shadowreck.

History

Her past is almost certainly hard to discover, as Leo Sunshadow c er memories, though no one knows why. One of the memories previ s her relationship with Hope Everthorn, from whom she got her signature lantern. However, the events of the fight at Shadowreck have made it clear she still has some fond memories of their time together.

She is not considered sane.

After the defeat of the Spawn of Shadowreck, she stayed for a week to let them celebrate her (and the other Phoenixborn) for the defeat of that Chimera.

Conjurations

Victoria's ghostly conjurations are the generally cute Shadow Spirit and the nauseatingly malformed Shadow Hound.
